

APRIL

La maernelle de Mme Maguire

Star of the Day:

Round two!

With only one term left in Kindergarten, we have begun switching numbers on a daily basis! I will be send home your child's Star of the Day date and assignment in advance. You can also see the schedule on the calendar in the hall. Feel free to send the assignment back before the date if you wish to complete it right away.

Force and Motion

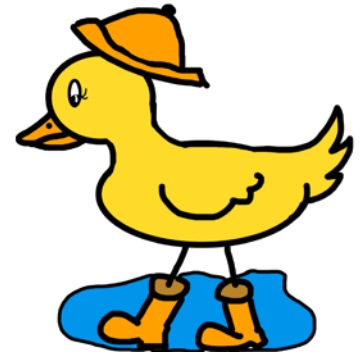

Our next science unit will be on force and motion. Please send one toy with wheels to school with your child before **Friday April 7th**.

Please ensure your child's name is on the toy and keep in mind that the bigger variety in shape and size of the toys will make for more interesting experiments. ☺

Jump Rope for Heart

The Jump Rope for Heart Kick off assembly will on April 5th. Feel free to join us to learn more about the fundraiser.

The Kindergarten students will be beginning their skipping unit this month as well. We will begin with basic positions and rotation of the rope and work towards linking 10 skips together. Once ten skips can be easily linked together, we will move onto tricks!

Upcoming Events

12:30pm

Boukili & ABCya

If you are looking for some extra activities to do at home with your child. Here is a good website to practice a wide variety of Kindergarten skills:

http://www.abcya.com/kindergarten_computers.htm

Enrichment

If your child knows their French letter sounds, sight words and blends, here is a French reading program you can follow at home.

Let me know if you have any questions!

Merci! Have a great April

A big THANK
YOU for helping your
child with their home
reading. It is making a
difference!!
Keep Going 😊
